**The Quest for a Radical Profession**-David Wagner 1990
This book, based on in-depth interviews of radical social workers, who at one time were associated with the Catalyst collective, explores through oral history the social psychological effects of upward mobility on political ideology. Historically large numbers of idealistic activists entered social work and other human services professions, but there have been few studies about the careers of such individuals and what has happened to radicals who pursue careers as community organizers, caseworkers or therapists, administrators or planners. Contents: A Radical Professionalism?; Radical Social Work; The Moral Careers of Radical Social Service Workers-Becoming Radical, Becoming Social Workers, Images of Success/Worlds of Pain, and Occupations and Ideology; Radicalism, Social Action, and Social Service Careers-The Decline of Oppositional Activism, Politics at the Retail Level: 'Radical Practice', The Absorption of Radicalism; and Bibliography.

**Social Work in Search of a Radical Profession**-Martin Rein 1976*

**One Hundred Years of Social Work**-Therese Jennissen 2011-02-17
One Hundred Years of Social Work is the first comprehensive history of social work as a profession in English Canada. Organized chronologically, it provides a critical and compelling look at the internal struggles and debates in the social work profession over the course of a century and investigates the responses of social workers to several important events. A central theme in the book is the long-standing struggle of the professional association (the Canadian Association of Social Workers) and individual social workers to reconcile advancement of professional status with the promotion social action. The book chronicles the early history of the secularization and professionalization of social work and examines social workers roles during both world wars, the Depression, and in the era of postwar reconstruction. It includes sections on civil defence, the Cold War, unionization, social work education, regulation of the profession, and other key developments up to the end of the twentieth century. Drawing on extensive archival research as well as personal interviews and secondary literature, the authors provide strong academic evidence of a profession that has endured many important changes and continues to advocate for a just society and a responsive social welfare state. One Hundred Years of Social Work will be of interest to social workers, social work students and educators, social historians, professional associations and anyone interested in understanding the complex nature of people and institutions.

**Disrupting Science**-Kelly Moore 2013-12-15
"Drawing extensively from archival sources and in-depth interviews, Kelly Moore examines the features of American science that made it an attractive target for protesters in the early cold war and Vietnam eras, including scientists' work in military research and activities perceived as environmentally harmful. She describes the intellectual traditions that protesters drew from - liberalism, moral individualism, and the New Left
- and traces the rise and influence of scientist-led protest organizations such as Science for the People and the Union of Concerned Scientists. Moore shows how scientist protest activities disrupted basic assumptions about science and the ways scientific knowledge should be produced, and recast scientists' relationships to political and military institutions.”--Jacket.

**Lewis Hine as Social Critic**

Kate Sampsell-Willmann 2009 This is the first full-length examination of Lewis H. Hine (1874-1940), the intellectual and aesthetic father of social documentary photography. Kate Sampsell-Willmann assesses Hine's output through the lens of his photographs, his political and philosophical ideologies, and his social and aesthetic commitments to the dignity of labor and workers. Using Hine's images, published articles, and private correspondence, Lewis Hine as Social Critic places the artist within the context of the Progressive Era and its associated movements and periodicals, such as the Works Progress Administration, Tennessee Valley Authority, the Chicago School of Social Work, and Rex Tugwell's American Economic Life and the Means of Its Improvement. This intellectual history, heavily illustrated with Hine's photography, compares his career and concerns with other prominent photographers of the day--Jacob Riis, Alfred Stieglitz, Paul Strand, Walker Evans, Dorothea Lange, and Margaret Bourke-White. Through detailed analysis of how Hine’s images and texts intersected with concepts of urban history and social democracy, this volume reestablishes the artist’s intellectual preeminence in the development of American photography as socially conscious art.

**Community Projects as Social Activism**

Benjamin Shepard 2014-07-01 Community Projects as Social Activism: From Direct Action to Direct Services by Benjamin Shepard is an engaging and accessible work that will get today’s students excited about the very real prospect of achieving lasting, positive change within their communities. It outlines a distinct approach to community practice born out of the intersection among social movements, day-to-day organizing, and the lessons of five decades of community change practices. This invaluable resource is a must-have for anyone involved in community organization, community health, and community activism practice research and policy.

**Analytical Skills for Community Organization Practice**

Donna Hardina 2002-05-01 This guide promotes the use of analytical skills in community organization practice, including information gathering and processing, legislative research, needs assessment, participatory action research, political analysis, population forecasting and social indicator analysis, power analysis, program development and planning, resource development, budgeting, and grant writing. These analytical methods, often used in practice but seldom systematically discussed, assist the practitioner in identifying community problems, planning interventions, and conducting evaluations. The text explicates a problem-solving model that identifies concepts and theories underlying practice, methods for problem identification and assessment, and techniques for goal setting, implementation, and evaluation. It features extensive listings of Web sites for community organization practice and is dedicated to the idea that the community organizer, to be truly effective, must be prepared to be an active learner.

**Union Contributions to Labor Welfare Policy and Practice**

Paul A. Kurzman 2013-12-16 This book focuses on the contributions of organized labor in the development and evolution of workplace human services in America and eight countries around the world. Beginning with an overview of labor-sponsored social service programs, it showcases the achievements by major trade unions in the arena of human services, from inception to present. The textbook concludes with a summary chapter which conceptualizes and summarizes current achievements and forecasts the future role of the labor movement in the delivery of workplace human services in the United States and abroad. It will be of use to those involved in the labor movement as well as practitioners in the fields of social work, human services, and labor and industrial relations. This book was published as a special issue of the Journal of Workplace Behavioral Health.

**The Politics of Social Work**

It locates social work within wider political and theoretical debates and deals with important issues currently facing social workers and the organisations in which they work. By setting the current crisis of identity social workers are experiencing in international context, Fred Powell analyses the choices facing social work in postmodern society. Fred Powell explores in this text contemporary and historical paradigms of social work from its Victorian origins to the development of reformist practice in the welfare state to radical social work, responses to social exclusion, the rennaissance of civil society, multiculturalism, feminism and anti-oppressive practice. In conclusion he examines the options facing social work in the 21st century and argues for a civic model of social work based on the pursuit of social justice in an inclusive society.

Globalisation, Global Justice and Social Work-Iain Ferguson 2005 This book tackles the effects of the past decade’s neoliberalism and globalisation on world-wide social work. The book also grapples with the implications for social work practice of the global social justice/anti-corporate and more.

The Empowerment Approach to Social Work Practice-Judith A. B. Lee 2001-03-07 First published in 1994, this book was hailed as a cutting-edge, theory-driven report from the frontline trenches in the battle for social justice. Both clinical and community oriented and written from a global perspective, it presents clients speaking for themselves alongside reports of prominent social work educators. This new edition puts greater emphasis on "how-to" skills in working with people toward their own empowerment and stresses multiculturalism. A new chapter identifies worldwide issues of oppression such as abuse of women and children and neglect of the mentally ill.

Social Welfare-David Macarov 1995-02-28 Poverty, unemployment, limited access to health care: the litany of ills plaguing contemporary society seems endless, reflective of the pragmatic and philosophical battles waged to overcome what some perceive as insurmountable obstacles. What role has the state played in mitigating the effects of these harsh realities? Offering a comprehensive survey of past and present programs, Social Welfare considers the substance and results of government intervention. Shaped by the works of such distinguished figures as Martin Luther, Adam Smith, and Charles Darwin, this incisive text charts the progression of social welfare policy from inception to its current status. David Macarov links present policy to the convergence of five interacting motivations: mutual aid, religion, politics, economics, and ideology. In identifying these elements, Macarov assays the significance of each in determining the nature of social welfare and its future. Featuring chapter summaries and exercises, this intriguing introduction to social welfare policy and practice will involve and inform students of social work, political science, and sociology. "David Macarov has written a handy introductory social policy text for undergraduate that transcends the descriptive accounts of the social services that pervade the literature. Unlike many other introductory texts, Macarov does not seek to list the major social services and describe their functioning but focuses instead on the role of ideas and wider social forces in social welfare. The book is easy to read and thoroughly supported with recommendations for additional reading. It is a useful addition to the literature." - Journal of Sociology and Social Welfare

Community Activism and Feminist Politics-Nancy Naples 2012-11-12 This collection demonstrates the diversity of women’s struggles against problems such as racism, violence, homophobia, focusing on the complex ways that gender, culture, race-ethnicity and class shape women’s political consciousness in the US.

Workable Sisterhood-Michele Tracy Berger 2010-07-28 Workable Sisterhood is an empirical look at sixteen HIV-positive women who have a history of drug use, conflict with the law, or a history of working in the sex trade. What makes their experience with the HIV/AIDS virus and their political participation different from their counterparts of people with HIV? Michele Tracy Berger argues that it is the influence of a phenomenon she labels "intersectional stigma," a complex process by which women of color, already experiencing race, class, and gender oppression, are also labeled, judged, and given inferior treatment because of their status as drug users, sex workers, and HIV-positive women. The work explores the barriers of stigma in relation
to political participation, and demonstrates how stigma can be effectively challenged and redirected. The majority of the women in Berger's book are women of color, in particular African Americans and Latinas. The study elaborates the process by which these women have become conscious of their social position as HIV-positive and politically active as activists, advocates, or helpers. She builds a picture of community-based political participation that challenges popular, medical, and scholarly representations of "crack addicted prostitutes" and HIV-positive women as social problems or victims, rather than as agents of social change. Berger argues that the women's development of a political identity is directly related to a process called "life reconstruction." This process includes substance-abuse treatment, the recognition of gender as a salient factor in their lives, and the use of nontraditional political resources.

Becoming Bureaucrats-Zachary W. Oberfield 2014-05-08 Bureaucrats are important symbols of the governments that employ them. Contrary to popular stereotypes, they determine much about the way policy is ultimately enacted and experienced by citizens. While we know a great deal about bureaucrats and their actions, we know little about their development. Are particular types of people drawn to government work, or are government workers forged by the agencies they work in? Put simply, are bureaucrats born, or are they made? In Becoming Bureaucrats, Zachary W. Oberfield traces the paths of two sets of public servants—police officers and welfare caseworkers—from their first day on the job through the end of their second year. Examining original data derived from surveys and in-depth interviews, along with ethnographic observations from the author's year of training and work as a welfare caseworker, Becoming Bureaucrats charts how public-sector entrants develop their bureaucratic identities, motivations, and attitudes. Ranging from individual stories to population-wide statistical analysis, Oberfield's study complicates the long-standing cliché that bureaucracies churn out bureaucrats with mechanical efficiency. He demonstrates that entrants' bureaucratic personalities evolved but remained strongly tied to the views, identities, and motives that they articulated at the outset of their service. As such, he argues that who bureaucrats become and, as a result, how bureaucracies function, depends strongly on patterns of self-selection and recruitment. Becoming Bureaucrats not only enriches our theoretical understanding of bureaucratic behavior but also provides practical advice to elected officials and public managers on building responsive, accountable workforces.

Selling Welfare Reform-Frank Ridzi 2009-04 Undoubtedly the most influential black intellectual of the twentieth century and one of America's finest historians, W.E.B. DuBois knew that the liberation of the African American people required liberal education and not vocational training. He saw education as a process of teaching certain timeless values: moderation, an avoidance of luxury, a concern for courtesy, a capacity to endure, a nurturing love for beauty. At the same time, DuBois saw education as fundamentally subversive. This was as much a function of the well-established role of education from Plato forward as the realities of the social order under which he lived. He insistently calls for great energy and initiative; for African Americans controlling their own lives and for continued experimentation and innovation, while keeping education's fundamentally radical nature in view. Though containing speeches written nearly one-hundred years ago, and on a subject that has seen more stormy debate and demagoguery than almost any other in recent history, The Education of Black People approaches education with a timelessness and timeliness, at once rooted in classical thought that reflects a remarkably fresh and contemporary relevance.

Grassroots Warriors-Nancy A. Naples 1998 Explores the connections among motherhood, work, politics and the community in low-income urban environments. It reveals the significant legacies of the social movements of the 1960s as well as the War on Poverty.

Towards More Democracy in Social Services-Gaby Flösser 1998-01-01

Critical Theory and Methodology-Raymond A. Morrow 1994-06-24 Critical Theory traces its roots from Marxism, through the renowned Frankfurt School, to a wide array of national and cultural traditions. Raymond Morrow's book traces the history and outlines the major tenets
of critical theory for an undergraduate audience. He exemplifies the theory through an analysis of two leading social theorists: Jurgen Habermas and Anthony Giddens. Unique to this volume is the emphasis on the link between Critical Theory and empirical research and social science methodology, often thought to be incompatible.

Meritocracy (un)challenged-Gloria Holguin Cuádraz 1993

Between Tsar and People-Edith W. Clowes 1991-03-21 This interdisciplinary collection of essays on the social and cultural life of late imperial Russia describes the struggle of new elites to take up a "middle position" in society-between tsar and people. During this period autonomous social and cultural institutions, pluralistic political life, and a dynamic economy all seemed to be emerging: Russia was experiencing a sense of social possibility akin to that which Gorbachev wishes to reanimate in the Soviet Union. But then, as now, diversity had as its price the potential for political disorder and social dissolution. Analyzing the attempt of educated Russians to forge new identities, this book reveals the social, cultural, and regional fragmentation of the times. The contributors are Harley Balzer, John E. Bowlt, Joseph Bradley, William C. Brumfield, Edith W. Clowes, James M. Curtis, Ben Eklof, Gregory L. Freeze, Abbott Gleason, Samuel D. Kassow, Mary Louise Loe, Louise McReynolds, Sidney Monas, John O. Norman, Daniel T. Orlovsky, Thomas C. Owen, Alfred Rieber, Bernice G. Rosenthal, Christine Ruane, Charles E. Timberlake, William Wagner, and James L. West. Samuel D. Kassow has written a conclusion to the volume.

The Road Not Taken-Michael Reisch 2002 First

The Politicization of Foster Care in New York City - L. Trevor Grant 1996 Reviews & analyzes the politicization of the labyrinthine foster care system in New York City. Emphasis is placed on the political influences & interferences in the foster care system, & lack of direction & initiatives of senior administrators who are political appointees of the Mayor. Political & ideological agendas are responsible for undermining the credibility & the effectiveness of the child welfare agency. The lack of planning & concern for its social workers & the lack of professionalism demonstrate the many contradictions of the agency. The privatization & contracting out of foster care services to voluntary agencies by the Administration for Children's Services (ACS) is discussed. "An important book based on both personal experience & meticulous, scholarly research."--Seth Farber, Ph.D., author of Madness, Heresy, & the Rumor of Angels. "This book provides the strongest indictment ever seen yet of the fiscally driven & morally insensitive child welfare system."--Amy Neustein, Ph.D., Founder: Help Us Regain the Children (HURT).
