2019-09-04 One of the "10 Must-Read Histories of the Palestine-Israel Conflict" — Ian Black, Literary Hub, on the 100th anniversary of the Balfour Declaration

The new edition of the acclaimed text that explores the issues continuing to define the Israeli-Palestinian conflict. Numerous instances of competing, sometimes incompatible narratives of controversial events are found throughout history. Perhaps the starkest example of such contradictory representations is the decades-long conflict between Israel and Palestine. For over 140 years, Israelis, Palestinians, and scores of peacemakers have failed to establish a sustainable, mutually-acceptable solution. The Israel-Palestine Conflict introduces the historical basis of the dispute and explores both the tangible issues and intangible factors that have blocked a peaceful resolution. Author Neil Caplan helps readers understand the complexities and contradictions of the conflict and why the histories of Palestine and Israel are so fiercely contested. Now in its second edition, this book has been thoroughly updated to reflect the events that have transpired since its original publication. Fresh insights consider the impact of current global and regional instability and violence on the prospects of peace and reconciliation. New discussions address recent debates over two-state versus one-state solutions, growing polarization in public discourse outside of the Middle East, the role of public intellectuals, and the growing trend of...

Refugees Into Citizens- Donna E. Arzt 1997

This timely book offers a blueprint for resolving what is often called the most intractable--if not taboo--subject in the Arab-Israeli peace negotiations: a just and permanent solution to the problem of over 3 million Palestinian refugees. The refugee question has never before been treated as the keystone of regional peace and stability. In a hard-hitting, yet balanced and dispassionate analysis, Donna Arzt advocates that the end of the Middle East conflict can only be achieved when all Palestinian refugees are
offered citizenship, compensation for lost property, and voluntary absorption options in either a future state of Palestine, other Arab states in the region, the broader international community, or, on family reunification grounds, repatriation in Israel. Comprehensive in scope, yet free of technical jargon, the book is both accessible to generalists and valuable to specialists in the fields of refugee studies, the Middle East conflict, human rights, and public international law. Drawing on the latest historiography, demographic data, and legal texts on the concept of "return," statelessness and minority rights, Refugees into Citizens avoids falling into the trap of relitigating old polemics and accusations by inviting the international community into a pragmatic, forward-looking dialogue on this most politically sensitive question. "Donna Arzt's innovative and substantial proposal for resolving the complex Palestine refugee issue challenges us to act on the basis that inclusion, reconciliation, compromise, dignity, and belonging are important ingredients in a search for viable, concrete, legal, and lasting resolution to seemingly intractable refugee problems at conflict's end." Judy Mayotte, author, Disposable People? The Plight of the Refugees "This compact book brilliantly summarizes both the history of and the law governing the status of millions of Palestinian refugees. It offers a workable plan for turning these refugees into citizens as part of a comprehensive settlement of the Arab-Israeli conflict. I recommend it to experts and lay readers alike." Rita E. Hauser, International Lawyer

From Coexistence to Conquest- Victor Kattan 2009-07-15 From Coexistence to Conquest seeks to explain how the Arab-Israeli conflict developed by looking beyond strict legalism to the men behind the policies adopted by the Great Powers.
at the dawn of the twentieth century. It controversially argues that Zionism was adopted by the British Government in its 1917 Balfour Declaration primarily as an immigration device and that it can be traced back to the 1903 Royal Commission on Alien Immigration and the Alien’s Act 1905. The book contains the most detailed legal analysis of the 1915-6 Hussein-McMahon correspondence, as well as the Balfour Declaration, and takes a closer look at the travaux préparatoires that formed the British Mandate of Palestine. It places the violent reaction of the Palestine Arabs to mass Jewish immigration in the context of Zionism, highlighting the findings of several British commissions of inquiry which recommended that Britain abandon its policy. The book also revisits the controversies over the question of self-determination, and the partition of Palestine. The Chapter on the 1948 conflict seeks to update international lawyers on the scholarship of Israel’s ‘new’ historians and reproduces some of the horrific accounts of the atrocities that took place from newspaper reports, UN documents,

and personal accounts, which saw the expulsion and exodus of almost an entire people from their homeland. The penultimate chapter argues that Israel was created through an act of conquest or subjugation. The book concludes with a sobering analysis of the conflict arguing that neither Jews nor Arabs were to blame for starting it.

The Gulf States and Israeli-Palestinian Conflict Resolution-Kristian Coates Ulrichsen 2014 The changing regional geopolitics of the Middle East have created new opportunities for the Gulf states to engage in Arab-Israeli conflict resolution after the Arab Spring. This policy report examines the potential role that the six Gulf Cooperation Council (GCC) states, Bahrain, Kuwait, Oman, Qatar, Saudi Arabia and the United Arab Emirates (UAE), might play in Israeli-Palestinian conflict resolution. It presents policy recommendations on how the Gulf states can engage with regional and international partners and build upon the greater space for action as the shifting parameters of Middle East politics create new regional pathways for action and cooperation.

Palestine Betrayed-Efraim Karsh 2010-04-27 The 1947 UN resolution to partition Palestine irrevocably changed the political landscape of the Middle East, giving rise to six full-fledged wars between Arabs and Jews, countless armed clashes, blockades, and terrorism, as well as a profound shattering of Palestinian Arab society. Its origins, and that of the wider Arab-Israeli conflict, are deeplyrooted in Jewish-Arab confrontation and appropriation in Palestine. But the isolated occasions of violence during the British Mandate era (1920–48) suggest that the
majority of Palestinian Arabs yearned to live and thrive under peaceful coexistence with the evolving Jewish national enterprise. So what was the real cause of the breakdown in relations between the two communities? In this brave and groundbreaking book, Efraim Karsh tells the story from both the Arab and Jewish perspectives. Heargues that from the early 1920s onward, a corrupt and extremist leadership worked toward eliminating the Jewish national revival and protecting its own interests. Karsh has mined many of the Western, Soviet, UN, and Israeli documents declassified over the past decade, as well as unfamiliar Arab sources, to reveal what happened behind the scenes on both Palestinian and Jewish sides. It is an arresting story of delicate political and diplomatic maneuvering by leading figures—Ben Gurion, Hajj Amin Husseini, Abdel Rahman Azzam, King Abdullah, Bevin, and Truman —over the years leading up to partition, through the slide to war and its enduring consequences. Palestine Betrayed is vital reading for understanding the origin of disputes that remain crucial today.
