Atlanticism for a New Century

Carl Carnes Hodge 2005

This book provides a new perspective on the role of Europe in the world, with a particular focus on the United States and Europe's role in the NATO alliance. The author argues that the transatlantic relationship is in crisis, and that the challenges facing the alliance are significant. The book is divided into three parts: the first part examines the historical roots of the transatlantic relationship, the second part explores the current challenges facing the alliance, and the third part offers a new vision for the future of the alliance.

Security in a 21st Century Europe

Andrew Cottey 2012

The Cold War: The Definitive Encyclopedia and Document Collection [5 volumes] - Spencer C. Tucker 2020-10-31 This sweeping reference work covers every aspect of the Cold War, from the origins to its conclusion. It contains a comprehensive annotated bibliography, maps and timelines, and more than 1,600 documents, many of them declassified. A two-volume atlas also accompanies the set. The encyclopedia is written by experts from all major disciplines and offers a balance of American and Russian views. It is a comprehensive resource for academic researchers, students, and general readers who want to explore the history of the Cold War in detail.

NATO and the Middle East: Mohammed Murtaza Ali 2010-10-04 Despite having been active in the region since the mid-1990s, the role of NATO in the Middle East has attracted particular attention since the events of 11th September 2001. This book analyses the limits of NATO’s role in the Middle East region and examines whether or not the Alliance is able to help in improving the fragile regional security environment through cooperative links with select Middle Eastern partners. The author reviews the strategic importance of the region from a Western perspective and identifies the key issues facing the Alliance, as well as the opportunities and challenges it faces.

Safeguarding German-American Relations in the New Century: Hermann Kunthe 2006 German-American relations are in transition. A number of explanations have been given for this fact: some focusing on the personalisation of politics, some on political and institutional disparities, still others pointing to disaffection about foreign policy objectives since the end of the Cold War and 9/11. This volume, written by American and German scholars, aims at not only promoting a better understanding of the complexities and the mutual interests involved, but also at identifying the causes and the underlying reasons for this differentiated approach to transatlantic relations.

The Fall of the Berlin Wall: Roger E. Kanet 2020-10-27 This sweeping reference work covers every aspect of the Cold War, from the origins to its conclusion. It contains a comprehensive annotated bibliography, maps and timelines, and more than 1,600 documents, many of them declassified. A two-volume atlas also accompanies the set. The encyclopedia is written by experts from all major disciplines and offers a balance of American and Russian views. It is a comprehensive resource for academic researchers, students, and general readers who want to explore the history of the Cold War in detail.

Turkey’s Foreign Policy in the Twenty-first Century: Ludovica Marchi 2014-10-17 Turkey’s foreign policy has often been dismissed as too idiosyncratic, inconsistent and lacking ambition. This book offers new insights into the current role of Turkey and its evolving relationship with the West. It explores how Turkey’s foreign policy has evolved over time and how it has responded to the challenges posed by the Arab Spring, the Syrian crisis, and the changing political landscape in the region and beyond.

The EU’s Search for a Strategic Role: Esther Brimmer 2007 The European Union has always had a role in "soft security" by anchoring stability on the European continent through integration and enlargement. In recent years, it has moved to harness the military capacity of its member states through the European Security and Defense Policy (ESDP) to project stability in and around Europe—and perhaps beyond. There are conflicting views of the future of ESDP and its implications for transatlantic partnership. This book explores the EU’s role in shaping the future of transatlantic relations and the implications for European and transatlantic institutions.

The Cold War superpower face-off between the Soviet Union and the United States dominated international affairs in the second half of the 20th century and still reverberates around the world today. This comprehensive and insightful multivolume set provides authoritative entries on all aspects of this world-changing event, including wars, new military technologies, diplomatic initiatives, espionage activities, important individuals and organizations, economic developments, societal and cultural events, and more. This comprehensive coverage provides readers with the necessary context to understand the many facets of this complex conflict.

The Fall of the Berlin Wall

In the aftermath of World War II, the Cold War emerged as a geopolitical struggle between the Soviet Union and the United States. This struggle lasted for decades and had a profound impact on international relations, leading to the formation of the North Atlantic Treaty Organization (NATO) and the establishment of a global bipolar system. The Cold War also resulted in the development of new military technologies, such as nuclear weapons, and the rise of a nuclear arms race. Despite the end of the Cold War in the 1990s, its legacies continue to influence international relations today.
