The Search for Beulah Land-Gwyn A. Williams 1980

The Search for Beulah Land-Mary Lee Settle 1988

Beulah Land-Lonnie Coleman 1973
O Beulah Land—Mary Lee Settle 2021-03-31 O Beulah Land, the second volume of The Beulah Quintet—Mary Lee Settle's unforgettable generational saga about the roots of American culture, class, and identity and the meaning of freedom—is a land-hungry story. It follows the odyssey of Johnny Church's descendants as they leave England in search of freedom and land. One of those descendants, Jonathan Lacey, settles in the backcountry of Virginia, where he battles both Native Americans and white frontier bandits and builds the beginning of a flourishing estate named Beulah. The novel closes shortly before the commencement of the Revolutionary War, with Lacey elected to the House of Burgesses and his family line firmly established in what is to become the state of West Virginia.

Dwelling in Beulah Land—Rick Flanders 2020-01-01 If you knew that this was your last day on earth and you had just a few, precious hours to speak to those closest to you, what would you say to them? What things would you most want them to know and remember once you were gone? The Book of John chapters 13 through 16 is the record of such a talk between Jesus and the men closest to Him, the small group of men known as His disciples—those who had given up everything to follow Him. The words He spoke to them that night, though they did not fully understand at the time, would revolutionize their lives and ministries and lead them into a deeper, fuller relationship with Him than ever would have been possible had He stayed with them on earth. And those words will do the very same for you! Dwelling in Beulah Land is not a book about living in Heaven, but about living the Christian life here on earth: not a life of spiritual ups and downs, failures, and fruitlessness, but a life of peace, victory, and abundance. Look at this familiar passage with new understanding as Evangelist Rick Flanders walks you through Jesus’ last hours with His disciples and leads you in a detailed study of the truths Jesus spoke to His disciples that night—and that He spoke to you. Learn of the Christian life as God intends for you to live.
it—the abundant life that is “Beulah Land”!

The Truth of Uncertainty—Edward L. Galligan
1998 Galligan (Professor Emeritus, English, Western Michigan U.-Kalamazoo) argues that contemporary American critics should embrace literary truths with all of their uncertainties rather than cling to make-believe certainties of ideologies. He celebrates values commonly associated with modern, not postmodern, criticism, applying them to contemporary works in a series of fresh and unusual inquiries. He finds implications for criticism in work from the physical sciences and in the works of largely ignored novelists. Annotation copyrighted by Book News, Inc., Portland, OR

Calvinists Incorporated—Anne Kelly Knowles
1997-02 Bringing immigrants onstage as central players in the drama of rural capitalist transformation, Anne Kelly Knowles traces a community of Welsh immigrants to Jackson and Gallia counties in southern Ohio. After reconstructing the gradual process of community-building, Knowles focuses on the pivotal moment when the immigrants became involved with the industrialization of their new
region as workers and investors in Welsh-owned charcoal iron companies. Setting the southern Ohio Welsh in the context of Welsh immigration as a whole from 1795 to 1850, Knowles explores how these strict Calvinists responded to the moral dilemmas posed by leaving their native land and experiencing economic success in the United States. Knowles draws on a wide variety of sources, including obituaries and community histories, to reconstruct the personal histories of over 1,700 immigrants. The resulting account will find appreciative readers not only among historical geographers, but also among American economic historians and historians of religion.

Red Round Globe Hot Burning - Peter Linebaugh 2019-03-26 On February 21, 1803, Colonel Edward (Ned) Marcus Despard was publicly hanged and decapitated in London before a crowd of 20,000 for organizing a revolutionary conspiracy to overthrow King George III. His black Caribbean wife, Catherine (Kate), helped to write his gallows speech in which he proclaimed that he was a friend to the poor and oppressed. He expressed trust that “the principles of freedom, of humanity, and of justice will triumph over falsehood, tyranny, and delusion.” And yet the world turned. From the connected events of the American, French, Haitian, and failed Irish Revolutions, to the Anthropocene’s birth amidst enclosures, war-making global capitalism, slave labor plantations, and factory machine production, Red Round Globe Hot Burning throws readers into the pivotal moment of the last two millennia. This monumental history, packed with a wealth of detail, presents a comprehensive chronicle of the resistance to the demise of communal regimes. Peter Linebaugh’s extraordinary narrative recovers the death-defying heroism of extended networks of underground resisters fighting against privatization of the commons accomplished by two new political entities, the U.S.A. and the U.K., that we now know would dispossess people around the world through today. Red Round Globe Hot Burning is the culmination of a lifetime of
research—encapsulated through an epic tale of love.

**Exodus from Cardiganshire**—Kathryn Cooper 2011-06-01

Cardiganshire was one of the few counties of England and Wales whose populations in 1911 were less than in 1851. This was despite natural increase, indicating that considerable out-migration was taking place. Indeed, the movement out of central and west Wales has formed the most consistent de-population trend in Britain apart from that from the Highlands of Scotland. This book explores the chronology and geography of out-migration from Victorian Cardiganshire, with particular reference to the dramatic decline that gathered pace from the 1870s. Contemporary source material is used to examine socio-economic conditions in nineteenth-century Cardiganshire. Factors that prompted the outward movement are identified, and features of rural life that were crucial to the migration process are revealed. Central to the book is computer-assisted analysis of data from the Victorian census. The trend of rural out-migration in nineteenth-century England and Wales is examined, and the experience of Cardiganshire is set within this context. The major destinations for the county's migrants were Glamorgan, Carmarthenshire, London, and Merseyside; and analysis of the census data focuses on key aspects of the Cardiganshire migration to these destinations. The book concludes with a brief examination of nineteenth-century emigration from Cardiganshire, drawing on contemporary newspaper reports, harbour records and private letters. Key sending areas and destinations are
identified; motivations for emigration are considered; and the role of a common culture and a shared background of geographical and family origins within the migration process is explored. This is the only study of migration in Victorian Britain that deals with both the sending area and the destination communities in any detail.

Language, Labour and Migration - Anne J Kershen 2017-07-05 Language, Labour and Migration explores two fundamental aspects of the migrant experience through a multi-disciplinary lens which combines the research of leading academics at the cutting edge of their fields. This latest volume from the centre for the Study of Migration brings together the work of anthropologists, economists, geographers, historians, political scientists and medical practitioners. Essays explore topics which include the role of mother tongue as a bridge to assimilation, the racialization of immigrants and refugees through language, the patterns of resistance undertaken by lascars, the experience of black British seamen in the eighteenth century, health advocacy in the twentieth century and the way in which cyber-space is being used to rediscover ethnic identity in the twenty-first century. Other essays examine Chinese labour in France during the First world war, employment opportunities for those deficient in the majority language and poverty in old age. All provide new and at times controversial, insights into the problems of language and labour in an alien society.

2021-01-10 Charles Ives is widely regarded as the first great American composer of classical music. Peter Burkholder provides an introduction to the composer's diverse musical output and unusual career to readers of any background, discussing about forty of the best and most characteristic
pieces framed with biographical sketches. The Oxford History of the British Empire: Volume II: The Eighteenth Century - P. J. Marshall 2001-07-26 Volume II of The Oxford History of the British Empire examines the history of British worldwide expansion from the Glorious Revolution of 1689 to the end of the Napoleonic Wars, a crucial phase in the creation of the modern British Empire. This is the age of General Wolfe, Clive of India, and Captain Cook. An international team of experts deploy the latest scholarly research to trace and analyze development and expansion over more than a century. Series Blurb The Oxford History of the British Empire is a major new assessment of the Empire in the light of recent scholarship and the progressive opening of historical records. From the founding of colonies in North America and the West Indies in the seventeenth century to the reversion of Hong Kong to China at the end of the twentieth, British imperialism was a catalyst for far-reaching change. The Oxford History of the British Empire as a comprehensive study allows us to understand the end of Empire in relation to its beginnings, the meaning of British imperialism for the ruled as well as the rulers, and the significance of the British Empire as a theme in world history.

**The Welsh in Iowa**-Cherilyn A. Walley 2009-07-01 The Welsh in Iowa is the history of the little known Welsh immigrant communities in the American Midwestern state of Iowa. Dr. Walley’s book identifies what made the Welsh unique as immigrants to North America, and as migrants and settlers in a land built on such groups. With research rooted in documentary evidence and supplemented with community and oral histories, The Welsh in Iowa preserves and examines Welsh culture as it was expressed in middle America by the farmers and coal miners who settled or passed through the prairie state as it grew to maturity in the late nineteenth and early twentieth centuries. This work seeks to not only document the Welsh immigrants who lived in Iowa, but to study the Welsh as a distinct ethnic group in a state known for its ethnic heritage.

The Industrial Revolution and the Atlantic
**Economy**-Thomas Brinley 2002-09-11 In recent years it has become commonplace to downplay notions of an industrial revolution and argue instead that Britain's transformation was gradual and incremental. In *The Industrial Revolution and the Atlantic Economy* Brinley Thomas contests this view, arguing that change in the energy base and hence in technology has enabled Britain to overcome an energy crisis and sustain dramatic population growth. Throughout these essays illustrate the organic approach to economic growth that Brinley Thomas pioneered.

**Baptist Autographs in the John Rylands University Library of Manchester, 1741-1845**-Timothy D. Whelan 2009 This book offers the student of English Baptist history (1741-1845) access to a remarkable archive of Baptist letters found in the collections of the John Rylands University Library of Manchester, of which only a handful have ever been seen before. Not only do these letters add greatly to our understanding of Baptist history during these years, but the biographical footnotes and glossary of names included in the book provide an invaluable resource tool for students who do not have the opportunity to conduct archival research. The most striking aspect of the Baptist correspondence in the Raffles Collection are the seventy-five letters addressed to John Sutcliff (1752-1814), Baptist minister at Olney (1775-1814). This book also provides identifications of more than 850 individuals, including 480 Baptist ministers, missionaries, and laypersons, of which nearly 300 can be found in the biographical glossary at the end of the volume. The remaining individuals are primarily ministers of other denominations, political figures, merchants, and writers, of which approximately ninety can be found in the glossary. No other volume in print provides students of Baptist history with such a resource for biographical information on Baptist ministers, missionaries, and laypersons from this period. The publication of this book also establishes the John Rylands University Library as one of the more significant depositories of Baptist archival
materials, especially as related to the workings of the Baptist Missionary Society, within the United Kingdom.

“Footsteps of Liberty & Revolt”-Mary Ann Constantine 2013-04-01 The late eighteenth century was one of the most exciting and unsettling periods in European history, with the shock-waves of the French Revolution rippling around the world. As this collection of essays by leading scholars shows, Wales was no exception. From political pamphlets to a Denbighshire folk-play, from bardic poetry to the remodelling of the Welsh landscape itself, responses to the revolutionary ferment of ideas took many forms. We see how Welsh poets and preachers negotiated complex London–Wales networks of patronage and even more complex issues of national and cultural loyalty; and how the landscape itself is reimagined in fiction, remodelled à la Rousseau, while it rapidly emptied as impoverished farming families emigrated to the New World. Drawing on a wealth of vibrant material in both Welsh and English, much of it unpublished, this collection marks another important contribution to ‘four nations’ criticism, and offers new insights into the tensions and flashpoints of Romantic-period Wales.

Handbook of Canadian Foreign Policy-Patrick James 2006 Handbook of Canadian Foreign
Policy is the most comprehensive book of its kind, offering an updated examination of Canada's international role some 15 years after the dismantling of the Berlin Wall ushered in a new era in world politics. Tackling recent developments in Canadian foreign policy, the authors of this work spotlight Canadian idiosyncrasies within a global context that are defined by wrenching juxtapositions. The specialists who have contributed their expertise to this book provide sophisticated analysis-conceptual as well as historical-rather than simply impressionistic judgments about contemporary events. Highlighting both well-known and understudied topics, this handbook presents a marriage of the familiar and the underappreciated that enables readers to grasp much of the complexity of current Canadian foreign policy and appreciate the challenges policymakers must meet in the early 21st century.

The Centenary Edition

Raymond Williams was the last of the great European male revolutionary socialist intellectuals. A figure of international importance in the fields of cultural criticism and social theory, Williams was also preoccupied throughout his life with the meaning and significance of his Welsh identity. Who Speaks for Wales? (2003) was the first collection of Raymond Williams’s writings on Welsh culture, literature, history and politics. It appeared in the early years of Welsh political devolution and offered a historical and theoretical basis for thinking across the divisions of nationalism and socialism in Welsh thought. This new edition, marking the centenary of Williams’s birth, appears at a very different moment. After the Brexit referendum of 2016, it remains to be seen whether the writings collected in this volume document a vision of a ‘Europe of the peoples and nations’ that was never to be realised, or whether they become foundational texts in the rejuvenation and future fulfilment of that ‘Welsh-European’ vision. Raymond Williams noted that
Welsh history testifies to a ‘quite extraordinary process of self-generation and regeneration, from what seemed impossible conditions.’ This Centenary edition was compiled with these words in mind.

**Wales, the Welsh and the Making of America**-Vivienne Sanders 2021-07-15 In 1971, Californian congressman Thomas M. Rees told the US House of Representatives that ‘very little has been written of what the Welsh have contributed in all walks of life in the shaping of American history’. This book is the first systematic attempt to both recount and evaluate the considerable yet undervalued contribution made by Welsh immigrants and their immediate descendants to the development of the United States. Their lives and achievements are set within a narrative outline of American history that emphasises the Welsh influence upon the colonists’ rejection of British rule, and upon the establishment, expansion and industrialisation of the new American nation. This book covers both the famous and the unsung who worked and fought to acquire greater prosperity and freedom for themselves and for their nation.

**Nation and Migration**-Juliet Shields 2016-01-04 Nation and Migration provides a literary history for a nation that still considers itself a land of immigrants. Most studies of transatlantic literature focus primarily on what Stephen Spender has described as the "love-hate relations" between the United States and England, the imperial center of the British Atlantic world. In contrast, this book explores the significant contributions of Scotland, Ireland, and Wales to the development of a British Atlantic literature and culture. It argues that, by allowing England to stand in for the British archipelago, recent literary scholarship has oversimplified the processes through which the new United States differentiated itself culturally from Britain and underestimated the impact of migration on British nation formation during the late eighteenth and early nineteenth
Scottish, Irish, and Welsh migrants brought with them to the American colonies and early republic stories and traditions very different from those shared by English settlers. Americans looked to these stories for narratives of cultural and racial origins through which to legitimate their new nation. Writers situated in Britain's Celtic peripheries in turn drew on American discourses of rights and liberties to assert the cultural independence of Scotland, Ireland, and Wales from the English imperial center. The stories that late eighteenth- and early nineteenth-century Britons and Americans told about transatlantic migration and settlement, whether from the position of migrant or observer, reveal the tenuousness and fragility of Britain and the United States as relatively new national entities. These stories illustrate the dialectical relationship between nation and migration.
