Religious Studies in Manitoba and Saskatchewan—John M. Badertscher 2006-01-01 This fourth volume in a series of state-of-the-art reviews of religious studies programs in Canadian provinces traces the formative role of religion in the establishment of the universities in Manitoba and Saskatchewan. Despite strong roots in denominational colleges, with their confessionally oriented study of religion, by the 1960s, “there was a diffused sense in the culture of the need for a religious perspective, and even a quest for religious experience, but at the same time there was a growing dissatisfaction with the conventional ways of being religious.” This new perspective, coupled with rising enrollments and increased funding, both as a result of the explosion of post-secondary education in Canada, was reflected in a shift away from the theological study of religion to an academic one. New Religious Studies departments that reflected a “science of religion” philosophy were founded, and faculty hired and curricula developed to meet these broader concerns. Current issues, such as graduate studies, research and publication, and faculty hiring are also treated, as are the Bible colleges and theological seminaries which play such an important role in both provinces. Assessments of religious studies research programs and their relation to the general community situate the programs in a wider context and indicate future directions. This solid, sensitively written volume adds considerably to our knowledge of religious studies in Canada and illustrates how yet another region is meeting the needs of a pluralistic society by providing new contexts for the study of religion.

Interpretative Origins of Classical Sociology—Jules J. Wanderer 2005 In their efforts to define the boundaries of a new discipline, the founders of modern sociology - Durkheim, Simmel, and Weber - left a rich legacy of theoretical insights. But, with the exception of Weber's Verstehen (interpretative understanding), standard treatments of classical sociological theory have tended to understate interpretative influences. The founders held different views of the place of alternative interpretations in sociology and of their symbolic and epistemological implications for a subject matter. For Weber, collective concepts failed to meet the standards of a unit of analysis for sociology. Durkheim and Simmel's approach to sociology's subject matter emphasized not the study of individuals or objects, but the social construction of what they meant and how they were experienced. Armed with the conceptual distinction drawn in phenomenological sociology between appearing things - things in the raw, life's content - and their appearances, ...

Britain, Russia and the Road to the First World War—Dr Marina Soroka 2013-07-28 For much of the later nineteenth-century Britain regarded Russia as its main international rival, particularly as regarded the security of its colonial possessions in India. Yet, by 1907 Russia's political revolution, financial collapse and military defeat by Japan, transformed the situation, resulting in an Anglo-Russian rapprochement. As this book makes clear, whilst international affairs lay at the root of this new relationship, personal factors also played an important role in reversing many years of mutual animosity and suspicion. In particular the study explores the influence of the liberal anglophile Count Aleksandr Benckendorff, the Russian ambassador in London between 1903 and 1916. By 1905, Russia's multiple weaknesses required a prolonged period of external peace by eliminating frictions with the principal rival powers, Britain and Germany, while France and Britain realised that a British rapprochement with Russia would be necessary to counter Germany's power. Benckendorff, as one of the most important figures in the Russian diplomatic service, persuaded Nicholas II and his Foreign Minister, V.N. Lamsdorff, to drop their objections to various long-standing British demands in order to pave the way for a Triple Entente. Although the overarching Russian strategy was conceived as 'balancing' the imperial rivalries of Britain and Germany, numerous factors - not least Benckendorff's energetic pro-British stance - upset the scales and resulted in a stand-off with the Central Powers. Demonstrating how Benckendorff’s fear of losing Britain’s friendship made him oppose all Russia’s efforts at improving Russo-German relations, this book underlines the pro-Entente policy's role in setting Russia on the road to war. For when the Sarajevo crisis struck; there was now no hope of appealing to German goodwill to help defuse the situation. Instead Russia’s status within the Entente depended on a show of determination and strength, which lead inexorably to a disaster of the Great War.

Unhallowed Ground—Melvin Starr 2013-09-20 Thomas atte Bridge, a man no one likes, is found hanging from a tree near Cow-leys Corner. All assume he has taken his own life, but Master Hugh and Kate find evidence that this may not be so. Many of the town had been harmed by Thomas, and Hugh is not eager to send one of them to the gallows. Then he discovers that the priest John Kellet, atte Bridge's partner in crime in A CORPSE AT ST. ANDREW'S CHAPEL, was covertly in Bampton at the time atte Bridge died. Master Hugh is convinced that Kellet has murdered atte Bridge – one rogue slaughtering another. He sets out for Exeter, where Kellet now works. But there he discovers that the priest is an emaciated skeleton of a man, who-mourns the folly of his past life. Hugh must return to Bampton and discover which of his friends has murdered his enemy...

Urbanisation, Street Children, and Their Problems-Nab Kishore Behura 2005 Street children can be considered as one of the by-products of the urbanisation process in developing countries. These children are to struggle very hard for their survival on the streets in very highly competitive environments, otherwise they fail prey to the public or even to their own parents also. Their childhood is seized, they are abused and their labour is greatly exploited for the benefit of others. In this book an attempt has been made to present a holistic profile of the street children of a growing urban city of Eastern India. Especially the prime thrust of the book concentrates on the aspects, like motive behind coming over to urban bases, educational and occupational profile of their parents and their family size, category and shelter of the street children, educational and occupational pattern of the street children, expenditure and savings, occupational hazards, use of earnings of these children by their parents, nourishment and addictive behaviour, health and hygiene, educational choice and future perspectives, attitudes of the public toward the street children etc. Apart from all these, the book also speaks about the pre and post-independence legislations on these children, UN’s convention on rights of the child and National Plan of Action, State Plan of Action, welfare agencies working for the betterment of these children etc. Contents: Introduction, Profile of Bhubaneswar City, Family Milieu, Socio-Economic Profile of the Street Children, Struggle for Survival The Problems of Street Children, Legislation, Welfare Programmes and the Street Children, A Recipe for Development of Street Children, Summary and Conclusion.

Studies in Jewish Myth and Messianism-Yehuda Liebes 2012-02-01 This book deals with the nature and development of Jewish myth from the Talmudic period through Kabbalah to Hasidism. It describes the changes in this myth in its various stages and the external influences on it. The author shows that myth is in the essence of the Jewish religion and that, rather than being created out of external influences, Kabbalah is one of its manifestations. The book also deals with the related subject of Messianism, and delves into the special spiritual personalities of some messianic figures in Jewish history to show how myth was incarnate in them.

Gastrointestinal Oncology - James L. Abbruzzese 2003-10-23 In 74 chapters, Gastrointestinal Oncology brings together a diverse group of specialists to provide the most authoritative, up-to-date and encyclopedic volume currently available on the subject. The first part of this text introduces a series of concepts and topics that are important to gastrointestinal malignancies in general. These topics include epidemiologic principles, prevention, screening, familial GI cancers, developmental and molecular biology, pathobiology, general therapeutic principles, emerging therapies, and palliative care. The second part of the book covers each of the specific cancers affecting the human gastrointestinal tract. These chapters are introduced by state of the art discussions outlining our current understanding of the pathobiology and molecular biology relevant to each cancer. Subsequent sections describe the multidisciplinary management of specific clinical situations. By organizing the treatment-related chapters around clinical scenarios, the reader will readily find the information necessary to effectively manage the complex clinical situations encountered by patients with gastrointestinal malignancies.

What is Policing? - P.A.J. Waddington 2010-03-31 This text provides an accessible, up-to-date and thought-provoking introduction to policing for all those undertaking degrees and foundation degrees. It aims not only to inform students and prepare them for their course, but also to expose them to some of the challenges they will face as they begin their studies and/or policing careers. This book is the essential foundation for the Policing Matters series, explaining what policing is, what the police do, the context for policing and what are the main issues it faces and challenges it poses.
