<tbody>
<tr>
<td>Territory of the Historian</td>
<td>Emmanuel Le Roy Ladurie</td>
<td>2017-04-30</td>
<td>Professor Le Roy Ladurie is the leading exponent of the `new' history of the French school. His achievement has set an example to historians in all other countries. As the diverse studies in this volume show, he has particularly revolutionised the study of population change, offering new techniques and posing new questions.</td>
</tr>
<tr>
<td>Reconciling Ancient and Modern Philosophies of History</td>
<td>Aaron Turner</td>
<td>2020-10-26</td>
<td>The distinction between ancient and modern modes of historical thought is characterized by the growing complexity of the discipline of history in modernity. Consequently, the epistemological and methodological standard of ancient historiography is typically held as inferior against the modern ideal. This book serves to address this apparent deficit. Its scope is three-fold. Firstly, it aims at encountering ancient modes of historical and historiographical thought within the province of their own horizon. Secondly, this book considers the possibility of a dialogue between ancient and modern philosophies of history concerning the influence of ancient historical thought on the development of modern philosophy of history and the utility of modern philosophy of history in the interpretation of ancient historiography. Thirdly, this book explores the continuities and discontinuities in historical method and thought from antiquity to modernity. Ultimately, this volume demonstrates the necessity of re-evaluating our assumptions about the relation of ancient and modern historical thought and lays the groundwork for a more fruitful dialogue in the future.</td>
</tr>
<tr>
<td>Once Within Borders</td>
<td>Charles S. Maier</td>
<td>2016-10-17</td>
<td>At a time when the technologies of globalization are eroding barriers to communication, transportation, and trade, Charles Maier explores the fitful evolution of territories—politically bounded regions whose borders define the jurisdiction of laws and the movement of peoples—as a worldwide practice of human societies.</td>
</tr>
<tr>
<td>What Is China?</td>
<td>Ge Zhaoguang</td>
<td>2018-03-26</td>
<td>Ge Zhaoguang addresses sensitive questions of identity that shape the politics of the world's most populous country. This insider's account teases out nuances of China's encounter with the contemporary world, using its past to explain its present and to provide insight into paths the nation might follow as the current century unfolds.</td>
</tr>
<tr>
<td>The Birth of Territory</td>
<td>Stuart Elden</td>
<td>2013-09-09</td>
<td>Territory is one of the central political concepts of the modern world and, indeed, functions as the primary way the world is divided and controlled politically. Yet territory has not received the critical attention afforded to other crucial concepts such as sovereignty, rights, and justice.</td>
</tr>
</tbody>
</table>
While territory continues to matter politically, and territorial disputes and arrangements are studied in detail, the concept of territory itself is often neglected today. Where did the idea of exclusive ownership of a portion of the earth’s surface come from, and what kinds of complexities are hidden behind that seemingly straightforward definition? The Birth of Territory provides a detailed account of the emergence of territory within Western political thought. Looking at ancient, medieval, Renaissance, and early modern thought, Stuart Elden examines the evolution of the concept of territory from ancient Greece to the seventeenth century to determine how we arrived at our contemporary understanding. Elden addresses a range of historical, political, and literary texts and practices, as well as a number of key players—historians, poets, philosophers, theologians, and secular political theorists—and in doing so sheds new light on the way the world came to be ordered and how the earth’s surface is divided, controlled, and administered.

The Global City and the Territory—Johan Gijsbert Wallis de Vries 2001

Making History, Drawing Territory—Ian J. Barrow 2003 On the cartographical mapping exercises of British Empire; a study.

Map Is Not Territory—Jonathan Z. Smith 1978-01-01

After the Map—William Rankin 2016-07 Over the course of the twentieth century, there was a major shift in practices of mapping, as centuries-old methods of land surveying and print publication were incrementally displaced by electronic navigation systems. William Rankin argues that although this shift did not render traditional maps obsolete, it did revise the goals of the mapping sciences as a whole. Military cartographers and civilian agencies alike developed new techniques for tasks that exceeded the capabilities of paper, such as aiming long-range guns, navigating in featureless environments, regularizing air travel, or drilling for offshore oil. "After the Map "reveals the major conceptual ramifications of these and other changes and in doing so offers a new way of understanding the central political-geographic shift of the twentieth century. Seen first and foremost as affecting a transformation in the nature of "territory," the change from paper mapping to electronic systems is not a story about technological improvement or the wizardry of precision; instead, it is about the "kind" of geographic knowledge and therefore governance that can exist in the first place."

History of the Territory of Wisconsin, from 1836 to 1848—Moses McCure Strong 2015-10-22 This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States,
you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. The Historian - Elizabeth Kostova 2010-06-24 In this internationally bestselling novel, the author of The Swan Thieves has 'refashioned the vampire myth into a compelling...late-night page-turner' - San Francisco Chronicle Late one night, exploring her father's library, a young woman finds an ancient book and a cache of yellowing letters addressed ominously to 'My dear and unfortunate successor'. Her discovery plunges her into a world she never dreamed of - a labyrinth where the secrets of her father's past and her mother's mysterious fate connect to an evil hidden in the depths of history. In those few quiet moments, she unwittingly assumes a quest she will discover is her birthright - a hunt for the truth about Vlad the Impaler, the medieval ruler whose barbarous reign formed the basis of the Dracula myth. Deciphering obscure signs and hidden texts, reading codes worked into the fabric of medieval monastic traditions, and evading terrifying adversaries, one woman comes ever closer to the secret of her own past and a confrontation with the very definition of evil. Elizabeth Kostova's debut novel is an adventure of monumental proportions - a captivating tale that blends fact and fantasy, history and the present with an assurance that is almost unbearable suspenseful - and utterly unforgettable. 'Quite extraordinary....Kostova is a natural storyteller....She has refashioned the vampire myth into a compelling contemporary novel, a late-night page-turner' - San Francisco Chronicle

A History of Military Government in Newly Acquired Territory of the United States (Classic Reprint) - David Yancey Thomas 2016-09-16 Excerpt from A History of Military Government in Newly Acquired Territory of the United States When the Constitution of the United States was drafted and adopted no specific provision was made for expansion. In consequence of this, some have doubted whether we had the power to acquire new territory, and especially to incorporate it with the Old. In spite of this, however, we have acquired a domain much larger than that comprised within the boundaries of the original thirteen States. The government of such territory before its incorporation has presented some interesting problems. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

The City-State in Europe, 1000-1600 - Tom Scott 2012-02-09 In this, the first comprehensive study of city-states in medieval Europe, Tom Scott analyzes reasons for cities' acquisitions of territory and how they were governed. He argues that city-states did not wither after 1500, but survived by transformation and adaption.

Land: How the Hunger for Ownership Shaped the Modern World - Simon Winchester 2021-01-19 From the bestselling author Simon Winchester, a human history of land around the world: who mapped it, owned it, stole it, cared for it, fought for it and gave it back.

A History of West Point and Surrounding Territory - Paul Welch 1962

The European Territory - Jacques Robert 2014-05-09 Originally published in French as Le territoire européen: des racines aux enjeux globaux, this book reflects the enormous changes that Europe has seen in the past half century. In a period of immense upheaval, the continent has
experienced increased integration, largely through the development of the European Union, heightened urbanization and a changing rural landscape, while economic and commercial activities have impressed their stamp on the whole scene. In this book, Jacques Robert deploys the experience amassed throughout his 35 years’ experience as adviser to European institutions in the field of territorial and regional development. The chapter on cities explains the emergence of the European urban hierarchy and the driving forces and inertia behind its evolution, while a following chapter looks at the changing role of rural areas. This material provides a historic overview of relevant policies and a discussion of future challenges. The third chapter discusses evolving paradigms of regional economic development and their impact on European regions. Next, there is a chapter on the historical roots and current processes within territorial integration. The book concludes with an examination of Europe’s place in the world at large, focussing particularly on globalization effects, climate change and new energy paradigms, which will present real challenges for decades to come. The book is unique in its combination of in-depth analysis of the evolution of European territorial policies and paradigms, but also in its geographically comprehensive approach integrating the experience of both Western and Eastern Europe. It will be of interest to academics and professionals within territorial development and spatial planning.

Recovered Territory - Peter Polak-Springer 2015-10-01
Upper Silesia, one of Central Europe’s most important industrial borderlands, was at the center of heated conflict between Germany and Poland and experienced annexations and border re-drawings in 1922, 1939, and 1945. This transnational history examines these episodes of territorial re-nationalization and their cumulative impacts on the region and nations involved, as well as their use by the Nazi and postwar communist regimes to legitimate violent ethnic cleansing. In their interaction with — and mutual influence on — one another, political and cultural actors from both nations developed a transnational culture of territorial rivalry. Architecture, spaces of memory, films, museums, folklore, language policy, mass rallies, and archeological digs were some of the means they used to give the borderland a “German”/“Polish” face. Representative of the wider politics of twentieth-century Europe, the situation in Upper Silesia played a critical role in the making of history’s most violent and uprooting eras, 1939-1950.

Proceedings of the ... Annual Meeting of the Western Society for French History - Western Society for French History 1994

The People's Historian - Anthony Brundage 1994
By providing an examination of John Richard Green’s career, Brundage illuminates a critical juncture in historiography, for Green was a critical figure in the transition from the writing of history of elites to a broader history of social and cultural change.

The ABC of Guyana’s Essequibo Territory - Nestor P. Campbell 1981

HIST OF MIDDLE NEW RIVER SETTL - David Emmons 1845

The Yukon Territory - Canada; Dept; Of the Interior 2015-07-26
Excerpt from The Yukon Territory: Its History and Resources In the preparation of this pamphlet subjects of general interest, including all the economic resources...
which have so far been discovered or profitably utilized in the Yukon Territory, have been classified for easy reference. Though the principal object in view is to present up to date information, yet an effort has been made to trace clearly and concisely the opening up of what was known as the Yukon District, and the gradual development of the mining industry. Facts, derived from the best available sources, have been presented, and an attempt has been made to convey to the reader an accurate and comprehensive account of existing conditions in the Territory. To this has been added much useful information upon the different methods of mining followed in the Territory, and also a synopsis of the regulations in force governing the disposal of lands and minerals. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. HIST OF THE MILITARY OCCUPATIO - Ralph Emerson 1859-1925 Twitchell 2016-08-26

A History of Middle New River Settlements - David E. Johnston 2015-07-12 Excerpt from A History of Middle New River Settlements: And Contiguous Territory I have had in mind for several years to write and publish a history of Mercer County and its people, but finding on research and investigation that the settlement of the territory thereof and incidents connected with the life of its people are so interwoven with that of the people who first crowned and crossed the Alleghanies and made settlements on and
along the upper waters of the Clinch, Sandy, Gnyandotte, Coal, and other rivers and streams, that it will be necessary to broaden the scope of the work beyond what was at first intended. Mercer County as originally created, and as it now exists, embraces territory which was formerly a part of that vast domain known as Augusta, later, and in succession, Botetourt, Fincastle, Montgomery, Greenbrier, Wythe, Monroe, Tazewell and Giles Counties. The early history of the County, and that of its settlers and people, is largely common all those who occupy the territory referred to. Their long sufferings, dangerous encounters with the wild beasts and the savages, their patient endurance, their history during and after the close of the war between the States, their manly and heroic efforts to restore and reestablish their rights as citizens of a free Republic, not less renowned than their chivalric deeds in war, deserve a place in the annals of history to be handed down to succeeding generations, as examples of valor, heroism and fortitude worthy of emulation. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work.
